

75. A blastocyst produced according to Claim 66, which upon differentiation gives rise to somatic cells having an increased life-span relative to the donor somatic cell or nucleus used for nuclear transfer.--

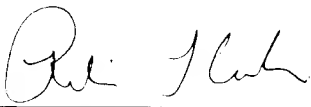

**REMARKS**

The foregoing amendments are made to cover preferred embodiments. Support for the claimed methods may be found especially in Example 7 and Figure 6, as well as the disclosure at pages 70 through 76, relating to production of cultured inner cell mass cells and cell lines by nuclear transfer.

Favorable examination on the merits is respectfully requested.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
